

WARM AND HEALTHY HOMES FUND

Boilers on Prescription

Solihull's Boilers on Prescription scheme provides grant funding to eligible households struggling to heat their home and at risk of cold-related illnesses, such as COPD or cardiovascular illnesses, for heating measures to improve their health, wellbeing and the thermal comfort of their home. Measures could include:

- Full central heating systems
- Central heating boiler replacement
- Storage heaters and heating controls

Are you working with clients at risk of a cold-related illness who are struggling to keep warm?

Please refer them if they meet **all** the following criteria. Is your client:

- Living in an owner occupied property that is a permanent static structure, for a minimum of 3 years?
- At risk or living in fuel poverty and in need of heating and/or insulation measures?
- In receipt of a means-tested benefit, or do they have a household income less than or equal to £16,010?
- Plus has the client been diagnosed with a long term health condition or a disability?
